AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

This amendment responds to the Office Action mailed July 12, 1999 in the above-identified application. Applicants request the following amendments be made to the above-identified application.

In the Claims

Please amend claim 17 as follows:

sub F1
C1

17. (Amended) A method for detecting and quantitating a specific target cell in a cell suspension of a mixed cell population, in a fluid system containing a mixed cell population, or in a single cell suspension prepared from a solid tissue, with the exception of normal and malignant hematopoietic cells in blood and bone marrow, the method comprising the steps of:

a. coating paramagnetic particles or beads with an antibody or antibody fragment directed against a membrane structure specifically expressed on the target-cell and not on a non-target-cell in the cell mixture;
